### **Primal Spirituality 2: Taking Intelligent Action & Fulfilling Mission**

**July 16 – 20, 2019**

This is part two in a four-part series. Primal Spirituality is the innate spirituality of humankind. This is the reality behind all the world's religions and spiritual paths. It is the key to our conscious function as creators, and our access to Universal Love. And it is the remedy for the ignorance, dysfunction and self-sabotage that afflicts humanity.

Taking Intelligent Action is an experience of Universal Intelligence flowing through the mind and directing actions taken in the world. It takes visions, ideas and deep feelings and brings them into manifest form. Taking intelligent action overcomes lethargy, procrastination and low energy. It leads to physical vigor and an increased state of aliveness.

When a person is initiated into fulfilling their mission, the highest potential for their life is connected to their presence and activity in the world, and that potential is being fulfilled. Fulfilling Mission overcomes futility, meaninglessness and disillusionment. It transmutes the experience of victimhood to the experience of creatorship.

## Dance in the Spirit Retreat

September 12 – 15, 2019

At this retreat we embrace all spiritual practices that are open to sacred dance as a cultural phenomenon. As Anthony De Mello, F. David Martin, and other mystics from ancient cultures have explained, much communication with the Higher Power, The Divine, or Higher Self comes through sacred dance. This kind of knowing and awareness is sometimes overlooked. I link this knowing and awareness and power from dance with spiritual recovery processes.

You don't have to know how to dance. Your dance ability can be nonexistent or range up to professional dancer—in any genre and from any culture! Along with sacred dancing, we'll laugh, play, write, pray, meditate and practice visioning with imagination. We will transform our lives deliberately and purposefully.

**Blog: As Consciousness Evolves, Religion Dissolves**

**By Jerry Kvasnicka**

We are spiritual beings having a human experience. There is no separation between us and the Divine Reality. Another way of saying this is that we are not here to somehow get out of the earth into some imaginary heaven; we are already in heaven, we come from heaven, and we are here as representatives of the Most High to bring heaven into the earth.

The easiest and most direct way to do this is to simply reveal the qualities of Divine character in everyday living, qualities such as integrity, dignity, nobility, generosity, honesty, serenity and humility. Yes, I know that these qualities are often expressed by those associated with a religion, but there is no inherent need for the latter. In fact, the strictures and dogma associated with a religion may tend to limit the natural expression of these qualities.
